**Standard Long 94"**

A Euro bucket is an attachment designed to work with Euro Bracket loaders. It's a sturdy and durable tool that can handle many different tasks. The bucket has a tough frame and reinforced edges, so it can handle heavy materials without getting damaged. With the Euro bucket, it's easier to move materials around and get things done efficiently.

The bucket's design includes a strong frame, reinforced edges, and a spacious capacity, enabling it to scoop, carry, and deposit various materials such as soil, gravel, sand, and debris with ease. With its exceptional maneuverability and precise control, the Euro bucket proves to be an indispensable tool for construction, landscaping, agriculture, and other industries requiring efficient material handling operations.
