

# FORK-LOK QUICKSpotter

## Approach and Lift

## Auto Lock

## Move with Confidence

The QuickSpotter is designed to move trailers around your facility more efficiently. With the patent pending Fork-Lok technology, this mechanism allows you to lock in the QuickSpotter without getting on and off your machine. Save time and your knees by using the QuickSpotter at your facility to more efficiently move boats, trailers, wagons and much more!

# FORK-LOK QUICKSpotter

## Heavy Duty Gooseneck Hitch

- Standard Gooseneck ball, 2 5/16"
- Standard gooseneck ball will enable moving of gooseneck trailers.
- Easily spot the gooseneck in the yard for optimal loading or storage.

## Auto locking

- Exclusive Patent Pending Fork-Lok to automatically lock QuickSpotter onto forklift forks.
- Automatic lock removes the requirement for the forklift operator to get off of seat.
- Automatic lock increases operator safety since they can remain in seated position.

## Multiple ball hitch

- Tri-Ball Hitch with Wagon Clevis
- Move nearly any type of bumper or clevis style wagon or trailer.
- Don't worry about being able to move a trailer or wagon around the yard.
